

# RG-AT-05-S MICROWAVE SENSORE (FOR AT60D, 625D)

## GENERAL FEATURES

- ▶ SAWF frequency stabilization technology
- ▶ Good frequency consistency
- ▶ High stability of wireless transceiver
- ▶ Three-touch trigger design
- ▶ High-capacity contact signal output
- ▶ Code is self-learned

## TECHNICAL DATA

Model	RG-AT-M014
Power Supply	AC / DC 12 ~ 36 V
Quiescent Current	15 mA
Operating Current	60 mA
Receiving Sensitivity	< -105dBm
Main Contact Capacity	3A, 30VDC
Contact Hold-Time	2 second
Working Frequency	315 MHz
Battery Life	Average press 200 times/day the quality of the battery can be used 300 days
Working Temperature	-20°C ~ 45°C
Working Humidity	10 ~ 90% RH
Sliding Noise	≤ 55 dB
Working Environment Temperature	-20 ~ +50°C
