NEW Generation of Electro-Mechanical Linear Ram For Residential Gates

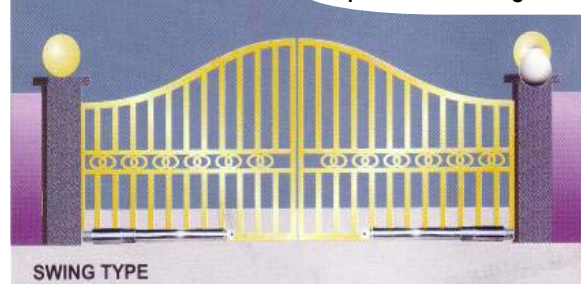

MODEL: VS-001

for more opening space

powerful and elegant

Product Features

Model	VS-001
Motor Power Supply	AC110/20V, 60Hz/50Hz
Operating Voltage	DC24V for normal speed DC12V for slow speed
Max. Gate Length	3 meter per wing
Max. Gate Weight	250kg per wing with force adjustable
Safety Clutch	Electronic Current Sensing
Position Limit Device	Electronic Fuzzy Logic
Driving Method	Electro-Mechanical Screw Drive Piston Type
Backup Battery	12 Volt 7AH Rechargeable
Travel Time	10 - 15 seconds
Working Temperature	0°C to 80°C
Weight	4kg

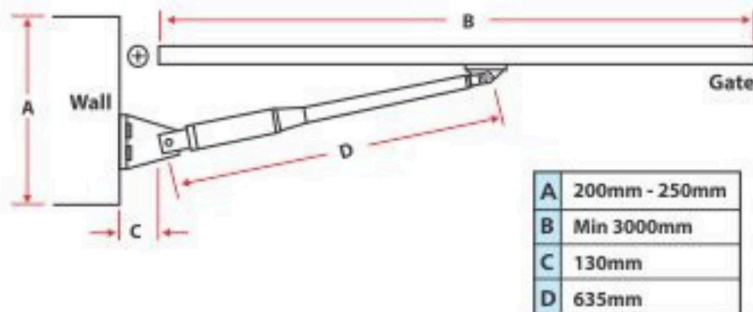

Accessories
